

HIEU NGUYEN

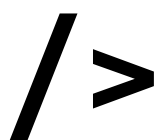

FULL - STACK DEVELOPER

ABOUT ME

Ola !

I see myself a full-stack developer. I fond of discovering latest tech stacks and turn them into helpful applications. Math and music are other two fields I am interested in. While playing sports and travelling are my hobbies. Putting them all together, I work to earn money, to serve the community and serve my purposes at the same time.

*Be sure to check my website to learn more about me and my projects :")

/ OBJECTIVE

I am seeking for more opportunities to enhance not only my specialist knowledge, but also life-essential skills.

/ WORK EXPERIENCE
